Human History and Disabilities

- Cultural variations – from infanticide to “Holy Innocents”
  - “Let there be a law that no deformed child shall live!” – Aristotle, 350 B.C.
- Late 1800s Social Darwinism led to Eugenics (Greek for “Good Birth”)
- The rise of institutions worldwide
- Intended to segregate and prevent reproduction
- Eugenics was accepted worldwide
- Gave rise to the Nazi Holocaust
  - Began with children with disabilities
FEEBLE-MINDED PERSONS ARE NOT

“Just Simple”  “Merely unfortunate”  “Perfectly harmless”

THEY ARE

Dangerously weak  Irresponsible

An Active Menace

Only constant care and supervision protects them and the community
In the U.S: Another Jim Crow Era

“A regime of state-mandated segregation and degradation soon emerged that in its virulence and bigotry rivaled, and indeed paralleled, the worst excesses of Jim Crow.”

“Massive custodial institutions were built to warehouse the retarded for life; the aim was to halt reproduction of the retarded and nearly extinguish their race.”

--Justice Thurgood Marshall (Cleburne, 1985)

- No basis in law to sue PA about Pennhurst
- But the segregated education system, Yes
- 1972 Right to Education – prevent the need
- Then, 1974, suit about Pennhurst
1977 Federal Court Victory

- In the midst of America’s efforts to create “good” institutions
- A U.S. Federal Court declared Pennhurst to be “Unconstitutional by its very nature”
- Because it was specifically and consciously designed to segregate
- And because the people
  - had lost skills (they
  - had been harmed)
The Pennhurst Longitudinal Study

- Began in 1979
- Largest such study yet done
- Tracked 1,154 people
- Visited every person every year
- Surveyed every family every year
- Measured qualities of life, satisfaction, costs

Historic Marker 2010

Between 1908 and 1987, more than 10,500 Pennsylvanians with developmental disabilities lived here. Public controversy over the inhumane treatment of residents and two decades of complex litigation, including three arguments before the US Supreme Court, led to the institution's closure. Groundbreaking advocacy and new public policy, including transition to community-based living, made Pennhurst a milestone in the disabilities civil rights movement.
